

Preparing today's students for tomorrow's world.

October 10, 2003

To whom it may concern:

I am pleased to write this recommendation as part of Ms. Janet Rousseau's file.

Janet has been under my supervision for 15 months. She has worked for the Monroe County Intermediate School District for 3 years as a Technology/Communication Support Specialist. In my judgment, her intelligence is well above average, and she understands both people and technology to a degree that is exceptional.

She has a thorough knowledge of technology, which, combined with her excellent verbal facility, enables her to express herself and present topics very well. She has a creative imagination that allows her to make work interesting. Janet has the physical energy and drive to do a good job, however demanding, in any setting.

Her moral qualities are above reproach. Her personal characteristics such as patience, consideration, emotional stability, and good judgment are great assets to the MCISD.

Many look upon Janet as the "technology guru", and I can honestly say that Janet has saved my hide a few times.

Please contact me if you have any questions.

Respectfully submitted,

Stephen J. McNew   
Assistant Superintendent for Curriculum and Instruction
